The Reinol Product Range

Hand Cleaners, Liquid Cleaning Chemicals, Skin Care and Skin Protection Creams,
Ultrasonic Cleaning Systems, Contractual Formulating, Manufacturing & Packing

Hand Cleaners

REINOL HAND CLEANER

Internationally used and trusted since 1927, Reinol Hand Cleaner is the industry's leading solvent-free hand cleaner. Medically approved, it nourishes and disinfects the skin while removing grease, paint, tar, and most other kinds of dirt. Eliminates dry skin, allergies, itchiness and inflammation - problems associated with normal solvent-based hand cleaners. Economical and effective; available in wall-mounted dispenser, which allows 600 handwashes per 2 litre cartridge. Also available in 250ml tubs, 500ml tubs, 1 litre tubs, 2 litre tubs, 2 litre cartridges (for dispenser) and 10 litre buckets.

REINOL K

An industrial strength hand cleaner formulated with dirt busting "plastic scrubbers" that dig out and mop up the toughest soils. Easy on hands, fortified with emollients to prevent drying and cracking, with a pleasant fragrance. Available in 250ml tubes, 2 litre cartridges (for dispenser) and 5 & 10 litre buckets.

REINOL FLAX

Contains a unique "wood flour" which provides a thorough clean, yet remains gentle on the hands. This solvent-free cleaner also conditions the skin with every wash. It contains cosmetic oils for added skin conditioning. Can be used for light or heavy applications. Available in 1 litre tubs, 2 litre cartridges (for dispenser) and 10 litre buckets.

REINOL BLUE

Designed to clean and care for your skin. This product is used to clean medium to lightly soiled hands. Organic components of the product are biodegradable and, when used in the recommended manner, the product will not be harmful to the environment. The scrubber in the hand wash is made up of biodegradable polyethylene micro granules to supply superior cleaning results. Available in 300ml squeeze bottle, 2 & 5 litre containers, with or without pump.

REINOL GREEN

This product is meant to clean medium to lightly soiled hands. Kills 99,99% of known bacteria i.e. Staphylococcus aureus, Esherichia coli, Pseudomonas aeruginosa etc. Organic components of the product are biodegradable and, when used in the recommended manner, the product will not be harmful to the environment. The scrubber in the hand wash is made up of biodegradable polyethylene micro granules to supply superior cleaning results. Available in 300ml squeeze bottle, 2 & 5 litre containers, with or without pump.

E - HAND WASH

A water based liquid hand / skin wash soap which quickly penetrates and cleans away dirt without damaging the skin. Economical, effective, efficient and environmentally friendly. Does not contain solvents. Suitable for use in most wall mounted dispensers. Available in 5 & 25 litre containers.

ROCKET

A heavy duty gel-type waterless hand cleaner is used extensively for removing grease, oil, graphite, rope dressing, paint and other soils from the hands. Does not contain free ammonia, free caustic soda, halogenated hydrocarbon solvents, or hard abrasives. Available in Rocket Smooth (no scrubber) Rocket White Scrub (plastic scrubber) and Rocket Heavy Duty (wood flour scrubber). Available in 1kg tubs, 4,5kg and 20kg buckets.

Liquid Cleaning Chemicals

BH-38 - Intensive general purpose cleaner

A heavy duty, industrial and commercial, butyl based detergent / degreaser, formulated to easily and economically clean a large variety of industrial and domestic areas. Complies to SANS 1344 (Performance specification) and SANS 1828 (safe to use wherever food is prepared or packaged). Contains no caustic, ammonia or abrasives. Available in 750ml spray bottle, 1, 5, 25, and 210 litre containers.

GLEAMOL - Dishwasher and general purpose cleaner

A liquid detergent that has been specially formulated to quickly remove grease and general grime from all hard surfaces. It has a particular strength for dishwashing while remaining mild and gentle to hands. Available in 1, 5, 25, and 210 litre containers.

SD-20 - All purpose cleaner

A specially formulated, water-based cleaner designed to accomplish an unusually broad range of cleaning tasks. Complies to SANS 1828 (safe to use wherever food is prepared or packaged). Contains no caustic, ammonia or abrasives. Available in 750ml spray bottle, 1, 5, 25, and 210 litre containers.

WC 2000 - Toilet bowl and urinal cleaner

An acid based, honey coloured, water-thin liquid specially formulated to clean and sterilize toilet bowls and urinals. The acid foundation and quick acting ingredients enables the removal of unsightly blemishes. The one-step cleaning action penetrates scum, mildew stains, hard water deposits and uric acid coatings easily, without undue need for scrubbing. Available in 1, 5, 25, and 210 litre containers.

TRUK WASH - All purpose cleaner

A water based cleaner that is safe for use anywhere. Biodegradable and does not contain solvents, caustics, ammonia or abrasives. Will not attack paint or aluminium. Cleans: Trucks, cars, bikes, boats, quads, jet skis. Hard surfaces such as tiles, bricks, paving, painted walls, windows, counter tops etc. Removal of light soiling on clothing and upholstery. Complies to SANS 1828 (safe to use wherever food is prepared or packaged). Available in 5, 25, and 210 litre containers.

SOAPIES - Lotonized hand and body soap

Formulated to provide the ultimate in hygienic hand and body care. Produces a luxurious lather which quickly penetrates and cleans away tough dirt without depleting natural skin oils. Available in 1 litre, 1 litre pump, 5, 25, and 210 litre containers.

CLEAN CARGO - High pressure cleaning liquid

A super strength degreaser concentrate designed for use with high pressure cleaning equipment. It removes road film and other tough soils from painted metal, painted wood and fibreglass surfaces. Available in 1, 5, 25, and 210 litre containers.

SC200 - Extra heavy duty cleaner

A highly concentrated, caustic based industrial degreaser designed specially for cleaning tasks which defy normal liquid detergent compounds. Will attack aluminium parts and painted surfaces. Ideal for unpainted concrete floors, driveways, garage forecourts etc. Available in 1, 5, 25, and 210 litre containers.

Caring For Industry

— Skin Care & Skin Protection Creams —

**REINOL No.1
SKIN CARE CREAM**
Unique formulation contains concentrated natural oils and waxes to penetrate the skin and protect it from within. Allantoin and collagen nourish the skin tissue and repair damaged skin cells. Moisturising ingredients prevent roughness and dryness.

**REINOL No.3
SKIN BARRIER CREAM
AGAINST ACIDS &
ALKALIS**
Silicon-free, non-greasy. Forms a dense water-repellent layer to prevent acids, alkalis, detergents, boron emulsions and other harmful substances from penetrating the skin. Special powder ingredients cover the pores without blocking them to protect against harmful dusts. Requires hand cleaner to remove.

**REINOL No.2
SOLVGARD BARRIER
CREAM AGAINST
SOLVENTS**
Forms invisible, dense protective layer against solvents such as thinners, petrol, diesel, paraffin and turpentine. It also shields against toxic powders. Provides long-lasting protection, yet still allows the skin to breathe. Dry, non-greasy, leaves no filmy deposits. Simply washes off with water.

**REINOL No.4
FOOT CARE CREAM**
Refreshes tired feet, reduces excessive perspiration and prevents unpleasant foot odour. Reduces the common irritation in the treatment of tinea pedis and other similar foot afflictions.

— Dispensers —

The economical and effective way of dispensing. Each 2 litre cartridge (as pictured above) will allow 600 hand washes. A protective casing (shroud) is also available (see far left).

Ultrasonic Cleaning Systems

Finnsonic

INDUSTRIAL CLEANING SYSTEMS

FINNSONIC INDUSTRIAL CLEANING SYSTEMS

Meeting today's needs for environmental safety and economy, FinnSonic Industrial Cleaning Systems are optionally aqueous or solvent-based. Ultrasonic vibrations in the cleaning liquid remove grease and other impurities from even the most difficult to get at places, including swarf from machined parts. Energy and detergent consumption are greatly reduced and the system cleans areas where conventional cleaning methods fail to reach.

SMALL IN SIZE, GREAT IN POWER

Special attention has been paid to effectiveness, technical features, user friendliness and design. The stainless steel ultrasonic machines have rounded corners. They are easy to service, maintain and clean. Machines are protected from running dry as the heating and ultrasonic functions are switched off automatically if the liquid gets too low.

Additional features for increased cleaning effect:

- Booster - periodical ultrasonic surge
- Sweep - ultrasonic frequency sweep

Additional fittings: Wash baskets, glass beakers, rinse tanks, platforms.

Number one in Ultrasonic Cleaning Systems

Finnsonic m-Range offers you the right tools for precision cleaning, inter alia

- Laboratory, optical, pharmaceutical, dental and hospital equipment, automotive, aviation and aerospace industries
- Jewellery, plating industry
- Vehicle hydraulic systems, gearboxes, shock absorbers etc.
- Electronic and food equipment

TANK SIZES

Even the smallest ultrasonic tank has a good washing effect. The liquid volume in the tank should be at least three times the weight of the item being cleaned. Available in a range of sizes between 3 litres and 160 litres.

ULTRASONIC GENERATORS AND TRANSDUCERS

VERSATILE - Due to their mobility, ultrasonic transducer boxes can be fitted to most types of existing cleaning tanks.

OTHER SERVICES - In-house contract cleaning and rental options available.

EFFECTIVE CLEANING

Ultrasonic cleaning is fast. Typical cleaning times vary from 30 seconds to 5 minutes, while heating the wash liquid intensifies the cleaning process significantly. Reinol manufactures a range of highly dilutable detergents / degreasers for use in these machines.

Contractual Formulating, Manufacturing & Packing

CONTRACTUAL FORMULATING, MANUFACTURING & PACKING

Reinol-Janek Chemicals offers a wealth of experience and technical expertise to companies requiring formulation or packing of their products on a contract basis. Please call us to discuss your needs.
